Section Detail

SECTION DETAIL 340S panels are produced in stucco texture for microgroove design or woodgrain texture for flush & raised panel designs. The door panels are prepared inside and out to offer maximum protection to provide you with a long-lasting surface finish and reduced maintenance cost.

Panel Features

The Industry Leader in Innovative Door Strength and Energy Efficiency

Tongue & Groove Section Joints **1**

Precisely designed thermally broken section joints reduce air infiltration and create weather tight seal.

Sandwich Construction **2**

3-layer steel front and back construction with insulating polystyrene core increases energy savings.

Panel surface treatment **3**

Galvanized finished painted steel provides superior corrosion resistance for years of trouble-free performance.

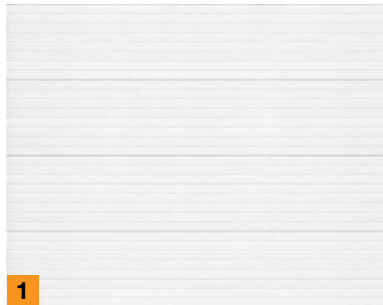

Bottom Weather Seal **4**

Keeps out wind, rain, debris and other elements for added energy savings.

Proprietary Safety Brackets **5**

Our reinforced safety bottom brackets and red safety screws create a double layer of built-in safety for the user.
